Luiz Gouveia

Localization Specialist

Contact: Lcpgou@gmail.com | +55 13 981942956 | 34 years old | Brazilian

Professional Profile

Multifaceted localization specialist and full-stack developer with proven experience in linguistic and cultural adaptation of multimedia content. Native Portuguese speaker with fluent English proficiency, offering a unique blend of creative and technical skills, with a strong interest in applying this expertise to the field of game localization.

Core Competencies

- Multimedia Content Localization
- Cultural Adaptation and Linguistic Precision
- Full-Stack / Automation Development with LLMs
- Audio Production and Voice Modulation
- Project Management and Team Collaboration

Professional Experience:

Localization Specialist / Singer & Dubber

WOA Network (Remote) | November 2023 - Present

- Leads the localization of 700+ songs from English to Portuguese in collaboration with two other professionals
- Manages the localization process of 10-22 songs weekly, ensuring high quality and consistency
- Implements advanced dubbing and translation techniques, preserving the original content integrity
- Notable results: Accumulated over 59 million views in 10 months, with one song reaching 1.9 million views on YouTube
- Demonstrates strong teamwork capabilities and adaptation to rigorous deadlines

Full Stack Developer / LLM Specialist

Freelance | 2022 - Present

- Develops innovative solutions using cutting-edge technologies, including Large Language Models (LLMs)
- Creates integrations between front-end and back-end systems, focusing on natural language processing applications
- Optimizes language models for content generation and translation assistance

English Instructor

LGO English Classes (Santos, São Paulo, Brazil) | June 2019 - November 2022

- Prepared students for English-language job interviews, emphasizing industry-specific terminology
- Developed personalized curricula to enhance language skills, including grammar, pronunciation, and cultural context

Technical Skills

- Languages: Native Portuguese (Brazil and Portugal), Fluent English
- Development: JavaScript, Python, Django, React, Node.js
- Audio & Video: Advanced production, subtitling and voice modulation techniques

Additional Qualifications

- 5+ years of professional experience in translation of multimedia content
- Proven track record of success in large-scale localization projects
- Experience in collaborative work and team leadership in localization projects
- Strong interest and passion for the gaming industry, with a desire to apply localization skills in this field
- Committed to continuous learning and adaptation to new localization technologies and practices

Available to complete a test translation and sign a confidentiality agreement.

Eager to apply my experience in multimedia content localization to the challenging and exciting field of game localization.
